LANGUAGE

- Thai (Native)
- English (Intermediate)

SKILLS

- Backend: C#, .NET Framework, .NET 8, RESTful API Development
- Frontend: React, JavaScript, TypeScript
- Database: MS SQL Server, Stored Procedures
- DevOps / Deployment: Git, Azure DevOps, Jenkins, CI/CD, Docker
- Scripting / Automation: Python
- Soft Skills: Problem Solving, Communication

EXPERIENCE

Full-Stack Developer (Contract) *Mar 2026 – Apr 2026*
Cloud Fission Co., Ltd. — On-site at Government Pension Fund (GPF)

- Supported enhancement and maintenance of internal GPF applications.
- Investigated and fixed bugs, reviewed configurations, and improved local environment setup.
- Reviewed static asset paths and supported CDN-related front-end adjustments.
- Assisted with unit testing and deployment workflow support using C#, .NET Core, MS SQL Server, and Jenkins CI/CD pipelines.

Software Developer (Junior) *Jul 2022 – Dec 2025*
Thai Roong Ruang Technologies Co., Ltd.

- Developed and maintained web applications and backend services for internal systems.
- Built REST APIs and integrated front-end with database workflows.
- Wrote and optimized SQL queries and Stored Procedures (MS SQL Server).
- Collaborated via Git and Azure DevOps (Repos/Pipelines) for team delivery and deployments.
- Improved data accuracy and reduced manual steps by refining validation and workflow logic.

Key Projects:

Sugar Cane Support System (SCSS) — Accounting & Loan Module

- Developed and maintained modules for sugarcane accounting and loan workflows, integrating UI, API, and SQL Server.

Tech: C#, .NET, SQL Server, JavaScript/TypeScript

TRR Dynamic AX Manufacturing Execution System — Timesheet

- Built timesheet features for logging and reporting, improving data accuracy and day-to-day usability.

Tech: C#, .NET, SQL Server, React, TypeScript

EDUCATION

Rajamangala University of Technology *Graduated: 2020*
Phra Nakhon (Thewet Campus)

Bachelor of Business Administration (B.B.A.)

— Information Technology & Software Development
